

# dSETTLE DSW

## SOFTWARE FOR HUD-1

## PREPARATION AND PRINTING

### Now create a HUD-1 PDF within the program

- Create a single HUD-1 PDF file containing both the front and back. This is done within the program. No longer necessary to rely on 3<sup>rd</sup> party software.
- The HUD-1 PDF file can be e-mailed to attorneys and banks involved in the closing.
- Print at Closing a 2006 B, C, & State copy of the 1099S for the Seller.
- Create Templates/Shell Closing Files to eliminate redundant entries and thus reducing the required keystrokes.
- Entirely new screen display. The control button functions are on-screen eliminating the need to return to the main menu for a different selection.
- Expanded Description fields on HUD-1 Front and Back.
- Print Preview for both sides of the HUD-1.
- Pop-up Print Menu for HUD-1 Front/Back with options to print both Borrower and Seller side Amounts or just Borrower or Seller sides only; Disbursement Listing and a B, C and State copy of the 1099S for the Closing.
- Print HUD-1 on legal or letter size plain paper.
- QUICKEN import for check writing.
